

I want to go out but do not know where to find cheap drinks, maybe there is an app that will help!

Jimmy is now looking up apps and to find one that can find him drinks for cheap!

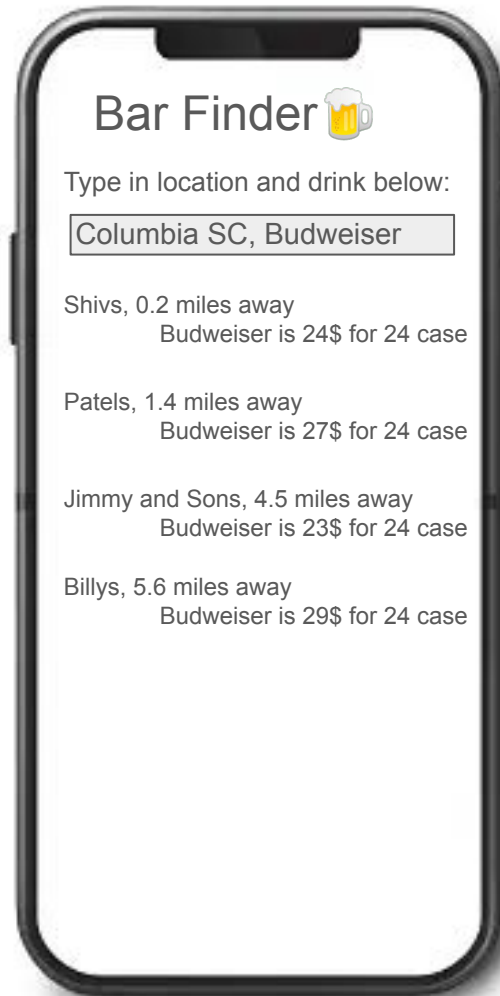

While doing this he comes across our app Drink Finder!

Here Jimmy
is able to
type in his
location and
the drink he
wants

Now it lists
the 4
nearest
stores with
the prices
of the beer
they have!

Now Jimmy is happy because he was able to find drinks for cheap in his area and can go out with his friends tonight to watch football!
